RE: Recall Announcement (ODA/ODH) 2019-025

Note: The original recall posted by USDA on January 18, 2019 did not indicate the recalled products were distributed in Ohio or surrounding states. USDA updated the recall on February 7, 2019 with a list of retail locations where the recalled products were distributed. The distribution list included multiple retailers in Ohio and surrounding states, so this recall is now being distributed to our food safety partners in Ohio.

These items were shipped to retail locations in California, Nevada and Texas.

The problem was discovered by FSIS during a routine surveillance activity at the distributor facility.

There have been no confirmed reports of adverse reactions due to consumption of these products. Anyone concerned about a reaction should contact a healthcare provider.

FSIS is concerned that some product may be frozen and in consumers' freezers. Consumers who have purchased these products are urged not to consume them. These products should be thrown away or returned to the place of purchase.

FSIS routinely conducts recall effectiveness checks to verify recalling firms notify their customers of the recall and that steps are taken to make certain that the product is no longer available to consumers. When available, the retail distribution list(s) will be posted on the FSIS website at www.fsis.usda.gov/recalls.

Consumers and members of the media with questions about the recall can contact Roger Kratz, executive vice president of H & T Seafood, Inc., at (213) 309-7192.
