RE: Recall Announcement (ODA/ODH) 2019-065

4/18/2019 UPDATE: RETAIL DISTRIBUTION FOR CAITO MELON RECALL FDA

FDA has reason to believe that the retail location(s) listed at the link below received fresh cut melon products that have been recalled by Caito. This list may not include all retail establishments that have received the recalled product or may include retail establishments that did not actually receive the recalled product. Therefore, it is important that you use the product-specific identification information in addition to this list of retail stores, when you check the food you have to see if it has been recalled.

The list of individual retail establishments from the FDA is included at the end of this recall. The list is also available from the FDA website by clicking the following link:

[Retail Establishments](#)

Caito Foods, LLC Voluntarily Recalls Fresh Cut Melon Product Because of Possible Health Risk

Caito Foods is voluntarily recalling fresh cut watermelon, fresh cut honeydew melon, fresh cut cantaloupe and fresh cut mixed fruit containing one of these melons, produced at the Caito Foods facility in Indianapolis because these products have the potential to be contaminated with *Salmonella* Carrau, an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with *Salmonella* often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with *Salmonella* can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

Reports of illnesses linked to these products are under investigation, and Caito Foods is voluntarily recalling the products out of an abundance of caution. The company has been advised by the Centers for Disease Control (CDC) and Food and Drug Administration (FDA) that it has linked 93 illnesses to the strain of *Salmonella* under investigation. Caito Foods has temporarily suspended producing and distributing these products as the company and FDA continue their investigations.

The products were packaged in clear, plastic clamshell containers and distributed in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, New York, North Carolina, Ohio, Pennsylvania, Tennessee, West Virginia, and Wisconsin. A full list of recalled products, including the brand, product label and retailer where sold, is included below. Caito Food and SpartanNash Company supply to independent retailers, so it is important to look at the label description and brand information to identify the product.

Because it is possible that products could still be on store shelves, this recall extends to both retailers and consumers. Consumers should not consume the product and should promptly dispose of any remaining product.

The potential that these products are contaminated with *Salmonella* was discovered through information gathered by state departments of public health.

Consumers seeking information may call 844-467-7278 Monday through Friday, 6 a.m. to 10 p.m. CT and Saturday and Sunday, 6 a.m. to 6 p.m. CT.

Retailers and wholesale customers should check their inventories and shelves to confirm that none of the products are present or available for purchase by consumers or in warehouse inventories. Please contact 844-467-7278 Monday through Friday, 6 a.m. to 10 p.m. CT and Saturday and Sunday, 6 a.m. to 6 p.m. CT to arrange for disposal or return of the product.

This recall is being conducted with the knowledge of the U.S. Food and Drug Administration

The products listed below are included in this recall:

Customer	Description	UPC	Pack Weight	Label Description/Brand	Plant Identifier Code	States Affected	Best By/Use By:

4/18/2019 UPDATE: RETAIL DISTRIBUTION FOR CAITO MELON RECALL FDA

FDA has reason to believe that the following retail location(s) received fresh cut melon products that have been recalled by Caito. This list may not include all retail establishments that have received the recalled product or may include retail establishments that did not actually receive the recalled product. Therefore, it is important that you use the product-specific identification information in addition to this list of retail stores, when you check the food you have to see if it has been recalled.
